PROJECT EXPERIENCE

Game Project Development, *Richard O. Jacobson Technical High School*

August 2021 – May 2024

- Utilized the Unity game engine to create a total of six original games with a team of four people.
- Designated as the “programming head”, allowing me full creative freedom over the implementation of the game mechanics
- Incorporated use of object-oriented programming and effective game development practices to develop each game, leading us to obtain an A on every project.
- Developed an original two-dimensional algorithm to give the illusion of fluid simulation with the use of heat transfer algorithms.

PROFESSIONAL EXPERIENCE

Stocking Associate

September 2020 – May 2022

Winn-Dixie Stores, Seminole, FL

- Quickly stocked shelves while being timed
- Occasionally took over the customer service desk on days when understaffed
- Earned employee of the month twice

Cashier Associate

January 2021 – Jun 2022

Dollar Tree, Seminole, FL

- Quickly resolved customer complaints
- Issued refunds using proper store software and policies

Deli Clerk

July 2022 – July 2024

Publix Supermarkets, Seminole, FL

- Earned Florida food-service and slicer-trained certification
- Expertly utilized fryers and worked kitchen alone, supplying food to the service case during rush hours

Computer Repair Shop Volunteer

November 2022 – Jun 2024

FeldTech, Seminole, FL

- Assisted walk-in customers with computer/phone issues, ranging from broken screens to simple virus removals
- Efficiently assembled approximately one-hundred desktop computers for customers and local businesses
- Restored countless old laptops and desktops that would otherwise be unusable
